To be accepted into the CFP Professional Education Program, documentation evidencing proof of completion of the education prerequisites must be received by FP Canada at least ten business days before the scheduled education program start date.

Proof of completion of prerequisite education must be provided either by official transcripts (sent by mail or electronically by email or through the educator's online student portal) or a letter from the conferring institute.

3.4 CFP Examination

The CFP exam is a six-hour, computer-based examination delivered at in-person test centres and via online proctoring up to three times annually. The exam consists of a combination of multiple-choice and constructed-response questions. The test specifications are published in the [FP Canada Blueprint: CFP Examination](#). Each question and available mark on the CFP exam focuses on specific elements of the [FP Canada Standards Council Competency Profile](#), and questions may also require integration across several financial planning areas.

FP Canada retains the right to prohibit any individual from writing an examination, at its sole discretion.

3.4.1 Exam Development and Administration

CFP exam development, administration, scoring, reporting, appeals, and complaints shall follow generally accepted testing principles consistent with ISO 17024 standards.

The [FP Canada Blueprint: CFP Examination](#) shall align with the [FP Canada Standards Council](#)

[Competency Profile for CFP Certification](#). The CFP examination administered to candidates must meet the specifications set out in the *FP Canada Blueprint: CFP Examination*.

3.4.2 Examination Retakes

The CFP exam must be successfully completed within four years of completion of the CFP Professional Education Program. Candidates who are unsuccessful on the CFP exam after four attempts or within four years of their first attempt must requalify by successfully completing or repeating the CFP Professional Education Program, regardless of previous exemptions granted. Requalification will qualify the candidate for up to four more attempts of the CFP exam and will reset the four-year time limit.

Regular application guidelines, including completion of the examination application and agreement to abide by all examination policies, remain in effect for all attempts.

3.4.3 Transitioning to QAFP Certification Path

Unsuccessful CFP examination candidates may choose to attempt the QAFP examination at any time. This option remains subject to QAFP examination prerequisites, education currency limits, and examination attempt limits (maximum of four exam attempts for each certification).

3.4.4 Examination Results

The CFP exam is a pass or fail exam only. The method used to set the passing standard and subsequent pass mark for FP Canada examinations is in accordance with well-established certification best practices for pass-score procedures.

Except in the event of an examination misconduct investigation, FP Canada shall inform each candidate of their result (pass/fail) within three months of the examination date.

3.4.5 Appeals to Examination Results

Candidates may request a rescoring of the CFP exam within 30 days of the date the examination results are released, as outlined in the [Guide to the CFP Examination](#).

Although a change in the exam result is unlikely, the rescoring fee shall be refunded if rescoring results in a change in the candidate's examination result from fail to pass.

3.4.6 Examination Misconduct

The FP Canada Standards Council shall investigate allegations of examination misconduct in accordance with the [FP Canada Standards Council Disciplinary Rules and Procedures for Examination Misconduct](#).

Examination misconduct may be grounds for disciplinary action, including, but not limited to, withholding examination results and/or denying certification.

3.4.7 Testing Accommodations

FP Canada shall comply with all relevant legislation regarding accommodating persons with disabilities and strives to accommodate all requests to the extent that we are reasonably able to provide all candidates with equitable access to FP Canada's certification exams.

Candidates requesting an accommodation must submit a [Testing Accommodation Form](#) which outlines the nature of the disability or unique need, details on how the disability affects the candidate's ability to take the exam under standard conditions, the specific accommodation requested, and any previous accommodations received. Candidates must provide current (i.e., dated within five years of the date of submission to FP Canada) documentation providing a clear diagnosis and description of the medical or health issue from an appropriate medical practitioner, results of any related assessments, and details on how the diagnosis affects the candidate's ability to take the exam under standard conditions.

The deadline to request a testing accommodation is two months prior to the examination sitting.

The decision to grant an accommodation shall be made on a case-by-case basis by FP Canada staff. Candidates will be notified if the accommodation request is denied or if FP Canada is unable to accommodate the request.

Where an accommodation request is approved, the candidate must sign a testing letter acknowledging that the accommodation(s) provided meets their needs before the accommodation will be granted.

3.4.8 Examination Locations

Candidates may elect to write an FP Canada examination at an in-person examination location or online using FP Canada's online proctoring option.

In-person exam locations (specific cities/towns) shall be determined at the discretion of staff. When selecting locations, staff will consider reasonable access for all candidates across Canada.

Candidates may elect to pay to have a dedicated writing centre established, within Canada, if feasible. FP Canada shall make every effort to meet such requests, provided it is feasible and so doing does not compromise examination security. Requests for an alternate exam location must be received by FP Canada no later than two months prior to the exam date. FP Canada does not administer its certification exams outside of Canada.

3.4.9 Score Reporting

Candidates who meet the passing standard shall receive notification of 'Pass' but score information shall not be provided. Candidates who receive a failing score shall receive a notification of 'Fail' and their scaled total score with diagnostic feedback shall be provided. Results letters shall be released to each candidate's secure FP Canada portal and candidates shall be advised of this by email.

FP Canada may communicate aggregate pass rates for all candidates and for first time exam-writers to consumer and/or trade media.

FP Canada may publish the names of successful candidates, at its sole discretion.

3.4.10 Administrative Examination Timelines

- The early-bird application deadline is two months prior to the examination date.
- The deadline for testing accommodation requests is two months prior to the examination date.
- The final registration deadline is one month prior to the examination date.

All deadlines may be abridged or extended at FP Canada's discretion as communicated in writing to candidates.

3.4.11 Examination Documentation

Candidates must provide proof of completion of all prerequisite education requirements. Education completed through the FP Canada Institute will be automatically tracked in the candidate's online account. For education offered by a recognized education provider that is not the FP Canada Institute, an official transcript (provided by mail, email or through the educator's online student portal) or an official letter from the conferring institute, are acceptable forms of documentation.

Documentary evidence of completion of the education prerequisites must be received by FP Canada at least one month prior to the scheduled examination sitting or such other date as established by FP Canada.

3.5 Work Experience

Experience earned by working in roles that involve the application of the skills and competencies detailed in the [*FP Canada Standards Council Competency Profile for CFP Certification*](#) is a cornerstone of CFP certification, providing the opportunity for candidates to hone their skills and demonstrate their ability to serve clients in a real-world setting.

All candidates are required to complete three years of qualifying work experience to be eligible to apply for CFP certification.

Only qualifying work experience completed within the eight years prior to applying for CFP certification will be considered. Work experience is not required to write the CFP exam.

Candidates who do not complete their work experience requirement within the above-mentioned time frame must successfully re-write the CFP exam to qualify for CFP certification.

3.5.1 Qualifying Work Experience

Qualifying work experience is based on a 35-hour work week and is defined as full-time (or equivalent part-time) financial planning-related employment or self-employment.

Experience must involve the application of the knowledge, skills and abilities described in the [*FP Canada Standards Council Competency Profile for CFP Certification*](#), and should help candidates in the application of financial planning processes to meet client needs. Experience may include performance in any of the following financial planning competency areas:

- Financial Management
- Investment Planning
- Insurance and Risk Management
- Tax Planning
- Retirement Planning
- Estate Planning and Law for Financial Planning

Roles that support the client-planner relationship, such as managing, training or assisting planners, shall qualify if they meet the above criteria.

Teaching financial planning courses at a post-secondary level qualifies for up to two years of work experience. Financial planning research or teaching that incorporates real-world integrated financial planning situations may qualify as qualifying work experience, depending on the specific nature of the research.

Work experience will be reviewed in accordance with section 3.5.2 “Verification of Experience” to ensure the key responsibilities and day-to-day tasks within the role meet the definition of qualifying work experience set out above. FP Canada accepts all work experience that meets the criteria outlined in section 3.5.2, regardless of the country or territory in which it was gained.

3.5.2 Verification of Experience

FP Canada shall review all work experience to evaluate the key responsibilities and day-to-day tasks within a role to make a determination of qualifying work experience. At the time of application for CFP certification, the candidate must:

- Provide an up-to-date work experience summary detailing previous work experience and specific start and completion dates.
- Provide a letter signed by their most recent or current supervisor, if applicable, providing details of the candidate's position, nature of activities, work start date (and end date if appropriate) and the signatory's contact information.

Independent financial planners who are affiliated with financial institution(s) or fee-only planners with no financial institution affiliations must provide letters from two personal financial planning clients. Letters must include a detailed description of financial planning services provided, the length of time these services have been provided, and the client's contact information.

All information supplied is subject to verification by FP Canada.

3.6 Post-Secondary Education Requirements

To be eligible for CFP certification, applicants must hold a post-secondary degree from an accredited college or university or qualify for an exemption as outlined in section 3.6.1., Post-Secondary Education Exemptions.

FP Canada requires that all applicants for certification provide proof of meeting FP Canada's Post-Secondary Education Requirements released directly to FP Canada from the school where the degree was completed. Scanned copies, email attachments, or documents that have been released to the student will not be accepted.

FP Canada will accept international degrees where there is supporting documentation establishing that the international degree is equivalent to a Canadian degree. Verification of international credentials is handled through [World Education Services](#).

All information supplied is subject to verification by FP Canada.

3.6.1 Post-Secondary Education Exemptions

3.7.2 Diploma, Digital Badge, and Certificate

Upon certification, candidates will receive a paper diploma and a digital badge that includes a printable annual certificate.

- CFP professionals may receive their diploma in French or English.

4 Maintaining CFP Certification

4.1 Renewals and Reinstatements

Failure to renew by the renewal date will result in a forfeiture of rights to use the CFP marks and removal from FP Canada's [Find Your Financial Planner](#) online directory until all requirements are met. The digital badge and printable certificate will reflect that the individual is no longer certified, based on the certification end date.

Upon renewal, status will return to "In Good Standing" and the rights to use the CFP marks will be reinstated along with reinstatement to FP Canada's [Find Your Financial Planner](#) online directory. The renewal will be effective April 1.

CFP professionals who have not renewed within 90 days will have their certification cancelled. FP Canada shall send written confirmation of the cancellation. Individuals who wish to reinstate their CFP certification will be subject to reinstatement policies and fees.

All deadlines may be abridged or extended at FP Canada's discretion as communicated in writing to certificants.
